EDUCATION

BSc (Hons) Computer Science

The Westminster College,
KTM

Expected 2028

SKILLS

LANGUAGES

Python JavaScript
Java HTML CSS SQL

FRAMEWORKS

React.js Node.js
Express.js Tailwind
GSAP

TOOLS & DB

MongoDB MySQL Git
GitHub VS Code

DESIGN & ML

Photoshop
Illustrator CNN
OpenCV

Danis Rai

Computer Science Student · Full-Stack Developer · ML Enthusiast

OBJECTIVE

Motivated and fast-learning computer science student with a strong foundation in Python, Java, and web development. Passionate about building real-world software and contributing to data-driven solutions. Seeking an internship to apply my knowledge, gain hands-on experience, and grow within a collaborative and innovative environment.

EXPERIENCE

Freelance Graphic Designer2022 — 2025

Self-employed · Remote

- Designed digital content, social media thumbnails, and product visuals for multiple clients
- Delivered projects for brands including Bond Deco, Bond Welfare, and Bond Brokerage
- Collaborated directly with clients to align deliverables with brand aesthetics and deadlines

PROJECTS

Restaurant Web AppMERN Stack

Full-stack restaurant application with menu management, order processing, and a clean customer-facing UI built with MongoDB, Express, React, and Node.js.

[^ github.com/Danis-code00/Nodejs-Resturant-Project](https://github.com/Danis-code00/Nodejs-Resturant-Project)

Dog vs Cat Image ClassifierPython · CNN · ML

Machine learning project classifying dog and cat images using a convolutional neural network. Covers image preprocessing, model training, and real-time prediction.

[^ github.com/Danis-code00/CV](https://github.com/Danis-code00/CV)

macOS-Style PortfolioReact · GSAP · Tailwind

Interactive macOS-inspired portfolio featuring draggable windows, animated dock, and smooth GSAP transitions. Built entirely in React with Tailwind CSS.

[^ github.com/Danis-code00/macOS_portfolio](https://github.com/Danis-code00/macOS_portfolio)

Pizza Ordering AppPython · Tkinter

Desktop GUI app with CSV-based dynamic menu loading, image display, cart management, and total calculation. Modular architecture with reusable components.
